Master Of Computer Application

Shri Ram Murti Smarak College of Engineering & Technology, Bareilly

11/2020 - 06/2022

8.41

Bachelor of Computer Application

Bareilly college, Bareilly

08/2017 - 10/2020

percentage - 63.7

WORK EXPERIENCE

Software Engineer Trainee

Ioanyt Innovations

12/2022 - 06/2023

Noida

Achievements/Tasks

- Investigate and promptly resolve issues, applying continuous improvement strategies to prevent their recurrence in future releases.
- Developed APIs to manipulate S3 objects, such as adding tags and storing file information in the dynamodb table, which improved the overall user experience.
- Implemented transactional APIs to provide atomicity and consistency to multi-step operations, resulting in more reliable and efficient data processing.
- Monitor application performance, employing appropriate strategies to identify and address bottlenecks.

Backend developer

Quixgo infotech pvt Ltd

07/2022 - 12/2022

Noida Sector-27

We are delighted to say that QUIXGO is made to provide you with the best service experience in the Indian eCommerce industry.

Achievements/Tasks

- Employ unit testing with mocking frameworks and automation of component, integration, and end-to-end tests, ensuring code reliability and maintainability.
- Integrate third party API's to the project.
- Led the development of a critical module, reducing response time by 30% and improving overall system reliability that improves User Experiences.
